Education

St. Joseph's University, Bengaluru 2024–2026
M.Sc in Big Data Analytics, CGPA: 8.0

Calcutta University, Kolkata 2021–2024
B.Sc in Economics Honours, CGPA: 7.5

Certifications

- **IIT Kanpur Certificate Program on Python for Artificial Intelligence, Machine Learning, and Deep Learning** Jan 2025

Experience

Data Analyst Apprentice — TEOCO Software Pvt. Ltd. *Jan 2026 – Present*

BOT Team — Tools: Python, Selenium, LLMs, Prompt Engineering

- Built LLM-based PDF extraction to pull structured data from unstructured invoice PDFs, validating JSON outputs and refining prompts to improve extraction accuracy.
- Designed and implemented an email automation system that auto-classified incoming emails using subject/body keyword and attachment-based rules, structuring logic in Excel and building Python scripts to automate sorting on Outlook.
- Ran daily Selenium bot operations on Paymentus portals, monitoring failures and ensuring uptime.

Invoice Automation Team (Client: T-Mobile) — Tools: Excel, Oracle SQL, Python, Monarch Pro, JIRA, Bitbucket, Sourcetree

- Developed and maintained automated invoice validation workflows for T-Mobile, ensuring billing accuracy and reducing manual effort.
- Wrote Oracle SQL queries and performed exploratory data analysis (EDA) to validate invoice data, strengthening reporting accuracy and data governance.

Data Analyst Intern, Red Dot Foundation – Safecity May 2025–Sep 2025

- Analysed harassment reports and built interactive dashboards to uncover gender-based violence trends, enabling data-driven policy recommendations.
- Performed data cleaning, exploratory data analysis, and visualisation to communicate insights to stakeholders.

Data Science Research Intern, Kathmandu University School of Management Jun 2025–Jul 2025

- Processed 4+ lakh online reviews using Python-based web scraping and NLP techniques (LDA, sentiment analysis, cultural analysis).
- Created visualisations with Seaborn and Matplotlib to communicate consumer insights and trends to research teams.

Academic Peer Tutor — St. Joseph's University, Economics Forum *Jul 2024 – Dec 2025*

- Provided 1-on-1 tutoring in economics and mathematics to improve student academic performance.

Projects

Credit ML Classification Project

Developed a 4-tier credit risk classification model using XGBoost (72% accuracy) on 50K+ customer profiles. Engineered a feature selection pipeline (VIF, ANOVA, Chi-Square) reducing dimensionality from 88 to 53 features with weighted sampling to address class imbalance.

Financial News RAG Analyzer

Architected a full-stack Retrieval-Augmented Generation platform achieving 100% reduction in operational costs via a zero-dependency local AI stack (TinyLlama). Built a scalable Python/FastAPI pipeline scraping 5+ news sources into a ChromaDB vector store, containerised with Docker Compose.

Technical Skills

Programming	Python, R, SQL, PL/SQL
Data & Analytics	Excel (Advanced), Power BI, Looker Studio, Mixpanel, Git, Sourcetree
Libraries	Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Flask, FastAPI, Streamlit
ML / GenAI	Supervised & Unsupervised Learning, NLP, RAG, LLMs
Big Data	Hadoop, Hive, PySpark
Cloud & DevOps	AWS (EC2, S3, VPC, Glue, Elastic Beanstalk), Terraform, Docker, Render
Statistics	Hypothesis Testing, Regression Analysis, Time Series Analysis

Extracurricular Activities

- **Event Head** — Data Shark Challenge (National-level Data Science & AI Competition)
- **Content Head** — "Weekend With Data" YouTube Series
- **NSS**, Volunteer Head
- **IEEE Documentation Head**, St. Joseph's University
